

Kneeler Plus™

Can't Kneel? Can't get up? You need Kneeler Plus!

The Kneeler Plus is a new, much better version of the traditional kneeler. It's more user friendly because you don't have to kneel completely to the floor and kneeling is painless as you cradle your knees in stretchable hammocks. Rising is effortless. It's a new kind of kneeler allowing you to remain active as you age or are confronted with knee, hip, or back pain. If you have arthritis, fibromyalgia, or sore joints this kneeler is a dream come true.

Traditional Kneeler Kneeler Plus
Not Just Another Kneeler

- ◆ More comfortable than the traditional kneeler.
- ◆ Allows for independent living.
- ◆ Offers relief for the problems related to post knee surgeries.
- ◆ Gone is the inability to kneel while doing the activities you enjoy.
- ◆ A better mouse trap in the kneeler world.
- ◆ Folds for easy transport.
