

NECK GUARD™

For Work That's a Pain in the Neck™

Ideal relief for ...

Painters, Plasterers, Mechanics, Electricians, Plumbers,
Carpenters, Sheetrockers, DIY Homeowners,
Ceiling Tile Installers & More!

STATISTICS:

Each year, there are approximately 209,000 work-related injuries affecting the neck. – NIOSH

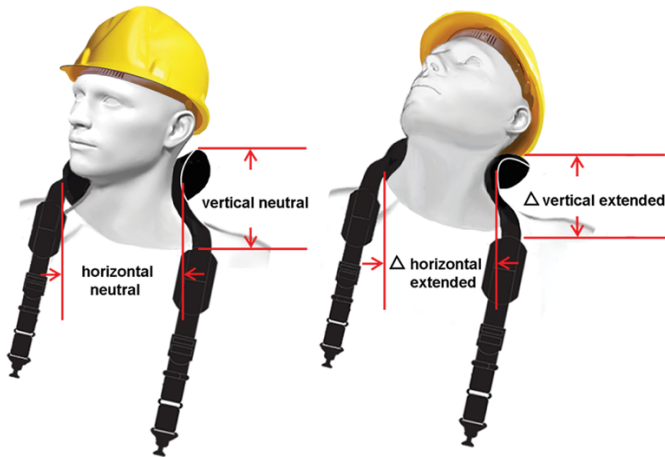

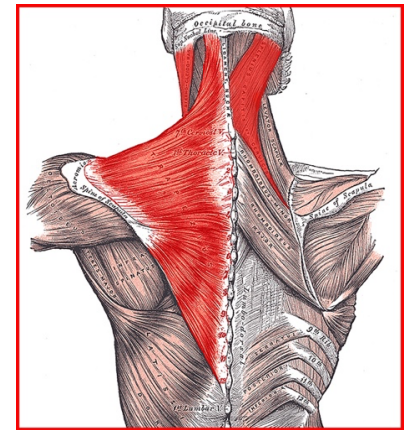

The average number of days off for sprains, strains, and tears was 26.6 days. – U.S. Bureau of Labor Statistics

Work-related neck injuries are clearly significant in both health and economic terms.

When other expenses are considered:

- the cost of rehabilitating affected workers
- lost wages
- lost production
- the cost of recruiting and training replacement workers

The total cost to the U.S. economy in 2022 is estimated to be \$13 BILLION annually in worker compensation

Neck Guard is a revolutionary, new neck support for any trade performing overhead work.

Designed with the worker in mind, Neck Guard's unique shape allows one to work comfortably while maintaining a safe posture. Neck Guard is lightweight, rugged, and easy to use.

So whether you are a homeowner with a weekend project, or a professional contractor, Neck Guard offers the performance you need, and the comfort you desire.
